March 2023

Good afternoon Students and Parents,

We are completing the 6th week of the 3rd quarter and I am hopeful students are meeting your academic and behavioral expectations. If not, please schedule a meeting with me and/or the grade level team as soon as possible. The 2nd half of the year proceeds quickly and we want all students to reach expectations without undue stress and anxiety. This can only happen if students, parents, and staff members are working collaboratively in order to assist students be the best that they can be. At the end of the year we don't want any surprises and communication is the best tool to make certain that no one is surprised come June.
